Education

Maharaja Surajmal Institute Of Technology 2024 – 2028
B.Tech in Electronics and Communication Engineering *CGPA: 8.1*

Ryan International School 2012 – 2024
Central Board of Secondary Education *Percentage: 85%*

Experience

Software Developer Intern Apr 2026 – Jun 2026
Suprazo Technologies

- Contributed across the full software development lifecycle by developing frontend and backend features, building REST APIs, workingwith databases while collaborating with the development team to deliver real-world software solutions.

Projects

OnBoardAI | *Python, Streamlit, LangChain, LangGraph, RAG, Chroma, Groq, LangSmith, MCP* Jun 2026

- Built an **onboarding assistant that answers policy questions and routes sensitive topics to HR**, grounding responses in synthetic policies with BGE-M3 retrieval, citations, refusal, and stale/conflict handling.
- Implemented code-enforced role checks and an editable confirmation card before deduplicated **Jira ticket creation through Atlassian MCP**; access remains with human approvers.
- Designed a 90-case evaluation suite (70 core, 20 hard) and LangSmith experiments; latest run passed **87/90 (96.7%)** on gpt-oss-120b, with **49/49** retrieval hits, **48/49** cited answers, **15/15** sensitive escalations, and 0/49 false escalations.

InsuraAI | *React.js, Node.js, Express.js, MongoDB, JWT, OCR, GPT, Cloudinary* Oct 2025 – Jan 2026

- Built a full-stack web application for **automated insurance policy tracking and renewal management** using AI-based document extraction.
- Implemented OCR + GPT-powered data normalization to extract key policy details from noisy documents.
- Developed a responsive frontend using React, Tailwind CSS, and Framer Motion for a seamless cross-device experience.
- Designed secure backend architecture with JWT/OTP/Google OAuth authentication, REST APIs (Express.js), and MongoDB Atlas.
- Integrated file uploads (Cloudinary), automated notifications (node-cron, Nodemailer), and deployed via Vercel and Render for cloud scalability.

Certifications

Software Engineer Intern - HackerRank Feb 2026
Certified by HackerRank for demonstrating strong problem-solving and software development fundamentals.

Software Development Job Simulation - DATACOM Jan 2026
Completed a Datacom software development simulation focused on application review and bug fixing.

Product & Technical Skills

AI: LangChain, LangGraph, LangSmith, RAG, MCP, Chroma, Groq
Technical: Python, Java, C/C++, JavaScript, SQL; React, Node.js, Express, Streamlit; MongoDB, MySQL, SQLite
Tools: Git, GitHub, Postman, VS Code, Vercel, Render, MongoDB Atlas, Cloudinary
Product: PRDs, user stories, roadmaps, risk registers, success metrics, LLM evaluation design
